

The AI Integration Horizon

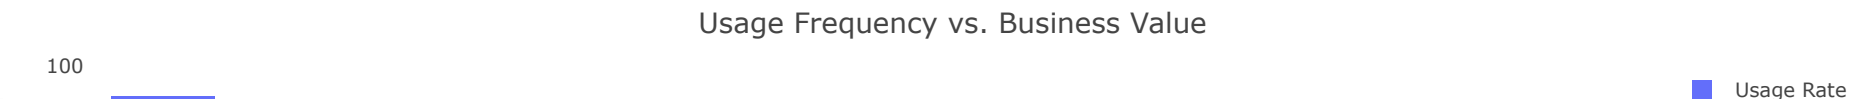

Visualizing the "Efficiency-Anxiety Gap" in Modern Workforce Adoption

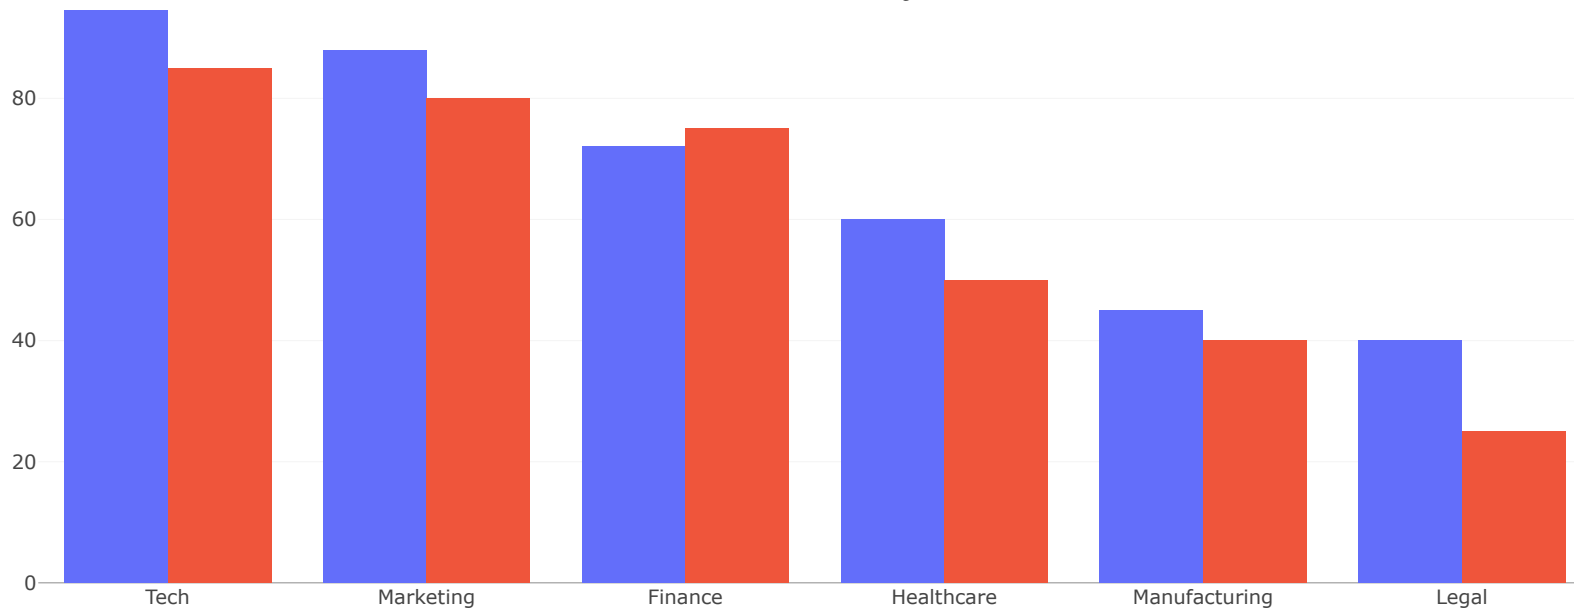

Act 1: The Exponential Adoption Curve

Story: Adoption hit an inflection point in 2022. We are currently shifting from "Explosion" to "Saturation."

Act 2: Industry Usage vs. ROI

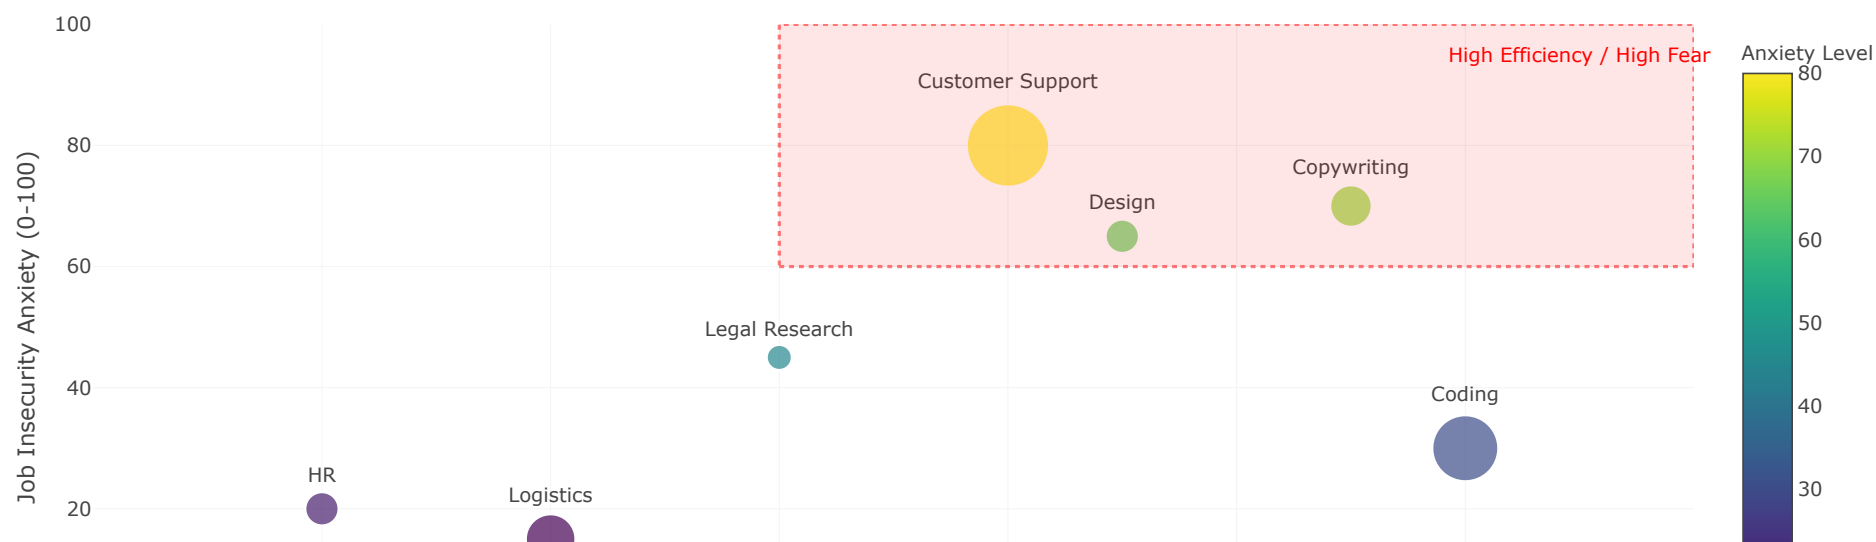

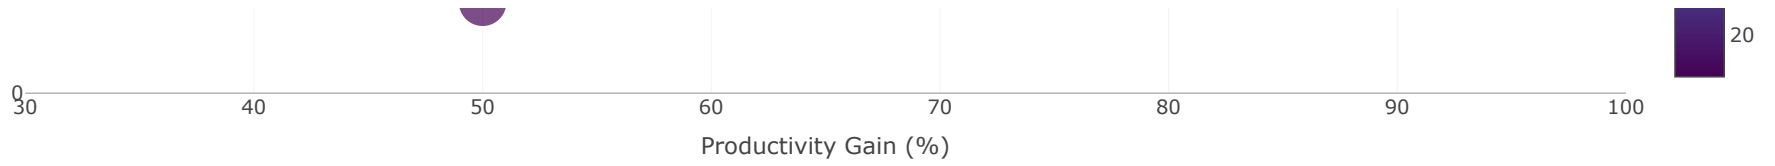

Story: Tech & Marketing (left) are maximizing ROI. Traditional sectors (Healthcare/Legal) face an "Integration Gap" where usage exists but ROI is lower.

Act 3: The Efficiency-Anxiety Gap

Correlation: Productivity Gain vs. Workforce Anxiety

Critical Insight: Departments with the highest productivity gains (Copywriting, Support) report the highest job anxiety. Coding is the outlier: high gain, low fear.
